Subject: US EPA Information Request Extension

Good afternoon Charlie –

This email is confirming our phone conversation today (8/28/13). US EPA has granted Heritage Thermal Services (HTS) an additional week extension on the Information Request Pursuant to the Clean Air act. HTS received a two week extension on 8/14/13, moving the deadline to 9/5/13. This additional week extension will move the deadline to 9/12/13.

HTS appreciates the US EPA working with us on this issue.
Sincerely,

Carrie L. Beringer
Environmental, Health, & Safety Manager
Heritage Thermal Services, Inc.
